

REMARKS

Reconsideration and allowance of the present application in view of the above amendments and the following remarks are respectfully requested.

Claims 1-24 remain in this application, where claims 1-2 and 16-17 are independent.

In response to the objection to the specification, that "As provided in 37 CFR 1.77(b), the specification of a utility application should include the following headings", headings are optional and applicant does not want headings included because they could be misinterpreted to be a substantive part of the application.

In response to the rejection of claims 1-24 under 35 USC 112, 2nd para, for being indefinite, the applicant traverses the rejection because those skilled in the art would understand the claims as written, in view of the specification, without any amendment to the claims.

The claims have been amended above for the sole purpose of advancing the prosecution of this application to allowance.

In addition, Applicant denies any statement, position or averment of the Examiner that is not specifically addressed by the foregoing argument and response. Any rejections and/or points of argument not addressed would appear to be moot in view of the presented remarks. However, the Applicant reserves the right to submit further arguments in support of the above stated position, should that become necessary. No arguments are waived and none of the Examiner's statements are conceded.

**NOV 30 2009**

In view of the above, it is respectfully submitted that the present application is in condition for allowance, and a Notice of Allowance is earnestly solicited.

Please charge any fee deficiencies and credit any overpayments to Deposit Account No. 14-1270.

Respectfully submitted,

By /Michael E. Belk/
